Office of Legislative Counsel

Friday - 2 October 1953

- - - -

1. In connection with Item 3 of the Journal of 1 October, Mr. Pforzheimer is to request the Senate Permanent Investigations Subcommittee to allow him to read the testimony in the hearings on the Government Printing Office which has not yet been printed, so that we may add a letter to the record stating that the alleged Communists in the GPO had had no access to classified CIA material. The reason for this decision arises out of the press criticism abroad of this alleged laxity in CIA security.

3. [redacted] discussed with me the possibility of securing legislation which will give doctors with duty tours at CIA equivalent service which will count for Selective Service requirements. While the Medical Office will officially forward such a request, it appears that their administrative remedies, both with the Department of Defense and the Public Health Service, have not yet been exhausted.
